#### FIM INTERNATIONAL LICENCE

If applying for an FIM International Licence you must complete the appropriate FIM International Licence/Medical Form - this can be downloaded from our website: acu.org.uk or contact the Licence Department: licence@acu.org

# Section 5 - Medical Report - Only required if:

Please note it could be 3 weeks before licence is issued

You are aged 70 or over and / or you are being treated for diabetes

#### To your doctor

Please read these guidance notes before filling in this section for the applicant whose name is on the front of this form. The person to be examined is applying for a licence to compete in motorcycle sport events. Particular care should be taken to ensure that the applicant does not suffer from any condition which might result in sudden loss of control of his/her motorcycle thus endangering other riders, officials and spectators. The controls of a motorcycle normally require the use of all four limbs. The applicant must be able to control his/her motorcycle under fierce acceleration and braking forces. Competition places both physical and mental demands on the rider.

Limbs: The applicant should have sufficient power, co-ordination and sensation in his/her limbs to maintain full control of his/her machine. An applicant with an organic or functional loss of a limb or part of a limb may be referred to the ACU medical panel and be subject to "on track" assessment.

Deafness: A licence can be issued to an applicant with impaired hearing, but not to an applicant with a disturbance of balance. Diabetes: A well controlled diabetic may be passed as fit to compete. They require evidence from their Consultant Diabetologist, or their own General Practitioner/regular medical attendant if are not under consultant care, that the diabetes is normally well controlled, that they are not subject to hypoglycaemic or hyperglycaemic attacks (no significant episodes in preceding year), that they have no neurological or ophthalmic complication associated with diabetes and that they understand their diabetes, its monitoring and management.

<u>Cardio-vascular system</u>: In general, a heart attack or serious cardio-vascular disease would normally exclude a rider from speed events. Special attention should be paid to blood pressure and cardiac rhythm disorders. In such cases a certificate from a Cardiologist including the results of any test the Cardiologist considers necessary, must be submitted with the Medical Report form.

Neurological and psychiatric disorders: In general applicants with a serious neurological or psychiatric disorder will not be granted a licence. Fits or unexplained loss of consciousness: A licence will not be issued if the applicant is an epileptic, has suffered a single epileptic fit or has suffered an unexplained loss of consciousness.

### Acknowledgement and Agreement of the FIM Anti-Doping Code (Appendix 2)

I, as a member of the ACU and/or a competitor in an ACU or FIM authorised or recognised meeting, hereby acknowledge and agree as follows: I undertake to familiarise myself with the FIM Anti-Doping Rules. I consent and agree to comply with and be bound by all of the provisions of the FIM Anti-Doping Rules, including but not limited to, all amendments to the Anti-Doping Rules and all International Standards incorporated in the Anti-Doping Rules. I acknowledge and agree that the FMNs and the FIM have jurisdiction to impose sanctions as provided in the FIM Anti-Doping Rules. I also acknowledge and agree that any dispute arising out of a decision made pursuant to the FIM Anti-Doping Rules, after exhaustion of the process expressly provided for in the FIM Anti-Doping Rules, may be appealed exclusively as provided in Article 13 of the FIM Anti-Doping Rules to an appellate body and in last instance for final and binding arbitration to the Court of Arbitration for Sport. I acknowledge and agree that the decisions of the arbitral appellate body referenced above shall be final and enforceable, and that I will not bring any claim, arbitration, lawsuit or litigation in any other court or tribunal. I have read and understand this Acknowledgement and Agreement.

One of the main risks in motorsport is obviously speed. Situations which would not give rise to major danger at low speed can have extremel serious consequences at high speed and in a competitive environment. While the organisers will do their reasonable best to make the event as safe as possible, there will inevitably be occasions when mistakes ar made. It must, however, be recognised by all competitors that where an accident occurs in such circumstances, any fault on the part of the organisers will not be the principal cause of any serious injury sustained. The dominant cause of any serious injury will be that the accident happened at speed in a competitive environment. The risk of accidents is one of the inherent risks involved in motorsport and every competitor must consent to this. The ACU is not prepared to accept personal injury claims (other than those covered under the Personal Accident Policy brought by competitors who have willingly participated in what they know to be a dangerous sport.
