

Thunderbike Extreme – Eligible Bike List

This list comprises some examples of machines which are eligible and have participated in the championship previously. It is intended as a guide only, as the rules themselves are the main indication of eligibility. Additionally, eligibility can occasionally be granted on a case by case basis for machines that are within the spirit of the class.

Please Note: Machine **eligibility** does not infer Machine **Compliance** – the responsibility remains with the rider to ensure that the machine complies to the maximum power and power to weight statistics appropriate, as stated in the main Thunderbike Rules ([LINK](#))

If your machine does not appear in the list but falls within the stated manufacturing periods in the rules, please contact the eligibility officers for an official decision.

Japanese Manufacturers:

Honda –

VFR 750 & 800 (all Models, Including VFR750R RC30)
